

English

This term we will be developing our writing skills across a range of genres. These will include: News reports, recounts, diary entries and balanced arguments. We will continue to develop our skills in spelling, punctuation and grammar.

Maths

Our focus this term will be on developing and improving our number skills. Key areas include: Place value, calculation strategies, fractions, decimals and percentages and shape. Where possible, we will link our learning in maths to our exciting theme work.

Science

In science, we will be researching evolution and inheritance. We will learn about the work of Darwin. Through our theme we will learn about biodiversity and adaptation of animals within "Extreme Environments"

Computing

Our focus this half term will be on Internet safety. We will explore the possible risks that exist in an online world. We will also learn how to create simple codes and algorithms.

History

Scott of the Antarctic will be our history link to our theme. We will learn about this intrepid explorer and the difficulties he faced on this extreme journey.

Our Autumn Theme

Extreme Environments

Year 6

Geography

We will be learning how to read a range of maps, exploring how physical landscapes are presented. Mountain formation will be a focus, exploring the physical processes behind these Extreme Environments.

Music

Young Voices
