Best known for: Being the first human to walk on the moon.

Surprisingly when he was only 16 he got his student pilot license.

At 17 he went to university to study building and designing aircrafts.

THE APOLLO 11 MISSION

This is Neil's famous saying from when he landed on the moon "That's one small step for man, one giant leap for mankind."

Did you know, Neil and his co-pilot Buzz walked 60m on moon!
They collected moon rocks and stones.

Interestingly they auctioned the moon dust for 1.4 million bucks!

THE CREW

- Neil went to the moon with co-pilots Edwin E. “Buzz” Aldrin and Michael Collins.

THE ROCKET

- The rocket that launched Neil and his crew into space –
The Saturn V rocket – was as tall as a 36-storey building!
