

English

Through a sequence of exciting lessons, we will be learning to develop a range of skills. We will write across a range of styles including: character and setting descriptions, diaries, stories and a persuasive argument.

We will continue to learn about spelling rules and patterns.

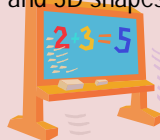

Maths

Our focus this half term will be numbers and shapes.

We will be exploring number sequences, the value of digits in numbers and developing our calculation strategies.

We will be learning the properties of 2D and 3D shapes.

Science

We will be carrying out a number of practical investigations to explore the properties of different types of rocks.

We will be creating a collection of rocks in the classroom.

We will be developing our skills of presenting our practical work in science.

Computing

We will learn how to use a range of programs to support our work across the curriculum. We are going to learn to write basic programs using 2go and animations using 2simple animation.

History

As history detectives, we will be learning about how Britain changed from the Bronze Age to the Iron Age.

Our Autumn Theme

Stones, Bones and Treasured Finds

Year 3

Geography

We will be learning how to interpret aerial maps using Bronze Age and Iron Age settlements.

Music

Animal Magic – using voices and untuned instruments
