

English

By the end of the autumn half term we will have improved and developed our persuasion, skills story writing, use of grammar and looked at the features of instructional and explanatory texts.

Maths

We are recapping and improving many of the important mathematical skills in our first half term. This will include written and mental calculations, shape, measurement, fractions and problem solving.

Science

We are investigating the digestive system of humans and animals, making comparisons and improving our understanding of how our bodies work.

ICT

We are improving our presentational, photographic and research skills by documenting our adventure through the digestive system.

History

We shall study the history of diets and dentistry.

Our Autumn Theme

Bottoms, Burps and Bile **Year 4**

Geography

We will spend a little time looking at maps and globes to locate the many places we have all visited over the summer holidays.

Music

P.E

We are improving our football skills and practising and learning basic gymnastic sequences

Art

We will look to improve our sketching and shading skills.

R.E

We will be learning from and about Judaism and how they give thanks.

PSHE

We have the opportunity to learn about medicine and drugs.

Our Trip

N/A
